Projects

USA Flu Season Analysis

- * Assess regional and seasonal differences in the flu's effects
- * Assess trends in deaths from flu across time and region
- * Provide insight into at risk populations and how they are affected
- * Provide insight into where, when, and how much staff to send to each state
- * Excel tools and Tableau, including pivot tables, statistical analysis and charts, were used to clean and extrapolate meaning from the data
- * Final results presented in a Tableau dashboard

USA Real Estate Market Analysis

- * Identifying reasons driving housing costs
- * Provide insights for sellers and buyers into the factors affecting their housing costs
- * Used Python to clean, wrangle, and generate exploratory analysis through visualizations, geospatial analysis, regression analysis, cluster analysis, and time-series analysis
- * Final results presented in a Tableau dashboard

Technical Skills

- * Python
- * Jupyter
- * SQL
- * Tableau
- * Microsoft Suite

Languages

- * B2 Spanish
